ClearComms

# I'm doing MY THING

## For BBC Children in Need

### CLIENT SUCCESS STORY

# Children in Need

## The Brief

National UK charity Children in Need contacted GFM to help them process donations for their annual telethon event through the use of IVR call handling services; as their resources were unable to satisfy increasing enquiries. The client wanted the fundraising services to be managed in their entirety from concept generation through to creation, delivery and reporting.

## Our Solutions

We developed and created new procedures for automatically processing high volumes of calls, which enhanced operational efficiency and enabled the client to successfully satisfy increasing enquiries in a timely and effective manner. As part of our ongoing support for Children in Needs' fundraising we; perform inbound call handling, process donations and manage associated databases. Every year this campaign helps thousands of children and young people in the UK affected by disabilities.

### OVERVIEW

- > Interactive Voice Response (IVR)
- > Donation processing
- > Data processing
- > Gift Aid records transcribed
- > Inbound call handling

55,000+  
IVR calls handled

99.4%  
connectivity

£1 Million  
donations banked

GFM ClearComms has been critical to our annual telethon success by reliably handling, recording and processing people's donations through their automated services.
